

BUPA Healthcare

At Perfect Balance Clinic we have a longstanding relationship with Bupa Healthcare and currently provide physiotherapy for Bupa Healthcare patients. We can bill them directly, for one appointment a day per authorisation up to your agreed limit.

You will need to provide the following to Reception@pbclinic.com:

- Your membership number (ten numbers eg 5387495847)
- Pre-approved authorisation number (8 numbers eg 29304984)
- Which discipline you have been authorised for (Physiotherapy)
- How many sessions have been approved (usually 1 initial and 4 follow-up)

Please be advised that without this information and a valid authorisation, BUPA cannot process your invoices which may result in the need to self-fund your appointments.

Procedure:

Please contact BUPA prior to booking an appointment with us. They will advise if you are covered. Once you have your pre-approved authorisation code, please contact Perfect Balance and our Reception Team will be happy to book you in.

You may need to make a contribution towards your treatment if you have a policy with excess or other limitations.

This may be referred to using the following terminology

- Excess
- Cost share (co-insurance)
- Member contribution
- Benefit limitation

Please contact BUPA directly if you are unsure about any of the above.

Our administration team is not able to access information regarding your private medical insurance, therefore this information needs to be provided by you.
